

MiLOGIC
Complete solution for energy management

MiLOGIC enables you to:

- Decrease your energy costs
- Pay only for what you consume
- Consume less energy
- Buy cheaper energy
- Save time
- Distribute costs according to actual consumption
- Improve forecast of energy consumption
- Improve the reliability of your equipment
- Protect the environment

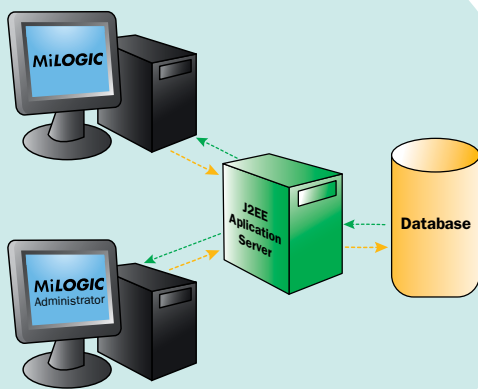

Consumption control:

- Electric energy
- Gas
- Water
- Heat
- Other energy products

MiLOGIC website application:

- Analyzes consumption and processes
- Analyzes trends
- Enables you to compile daily and monthly reports
- Forecasts daily and monthly consumption
- Sends alarms via SMS or e-mail
- Offers diagnostic data
- Enables data export

Technical aspect:

- Three-tier architecture: an application server (Java EE), a database, various clients
- Different operating systems: Windows, Linux and Unix
- Different databases: MSSQL, Oracle, PostgreSQL, MySQL, DB2
- Simple connectivity with other business applications
