

Notice from Iskra MIS and Iskra Kondenzatorji

Dear Partner,

Iskra Kondenzatorji and Iskra MIS are intensively preparing to merge. We believe that the integration of Iskra Kondenzatorji with Iskra MIS and consolidation will help us to **achieve synergy effects.** We will continue with our planned **long-term development of the production programmes and strengthening our market position.**

Knowledge and experiences of the enlarged Iskra MIS company will be **upgraded,** which will ensure **greater efficiency.** We will be able to offer more **state-of-the-art technology and high quality solutions and services.** Our experts will strive to cooperate with you successfully, and our aim as a company is to make the integration as smooth as possible and to enable you new opportunities for our further mutual development.

Legally and formally the integration will take place at the end of June. On 1 July 2010 we'll start to operate in the market together as Iskra MIS.

The owner of the Company and the Iskra trademark will remain unchanged. Our production plants will stay on the same locations and the majority of our contact data will remain unchanged. We will centralize some strategic functions, make some business processes uniform and **change only some basic contact data.** You will be promptly informed about any eventual organizational changes.

In the last sixty years we have established, also with your help, a recognized and successful company. Therefore we will strive to continue close partnership cooperation, to strengthen mutual relations and to maintain stable growth and development of state-of-the-art technological solutions and services for our business partners.

For additional information please contact us on the phone number **+386 4 237 21 12** and e-mail **info@iskra-mis.si.**

We look forward to working with you.

Best regards,

Robert Srabotič, M. Sc.
President of the Managing Board:

Peter Kukovica, PhD
Member of the Managing Board

Damjan Mohorič, M. Sc.
Member of the Managing Board
